DETERMINATION TO EXCEL

ZANTAT

We take great care and patience in communicating with our customers and business partners to better understand their needs. We can be counted on to deliver valued customised solutions, leading them towards business sustainability and efficiency.

Founded in 1985, Zantat Sdn Bhd has since grown to be one of Malaysia's leading producers of high-grade Calcium Carbonate powder and Calcium Carbonate dispersion products today. Helmed by a highly devoted team of over thirty years experience and industry know-how, we are known to create lasting value for our customers and business partners by delivering superior quality products and excellent services across diverse industries.

With a determined mindset and unwavering commitment, we ensure our business operations are all carried out with utmost integrity, sincerity and efficiency.

Constantly keeping abreast with the current industry trends, innovation and technology, Zantat is always gearing towards greater heights in our expansion to the international market scene, upholding the same vision and principles laid down by our founders.

毅力

Zantat has been a symbol of grit, hard work, determination and integrity for over three decades. These enduring qualities have been the guiding principles of Zantat since day one and have allowed us to grow into one of the leading producers of Calcium Carbonate in Malaysia.

DEFINING MOMENTS

成就

1986

Zantat Kuala Lumpur plant commenced operations to manufacture coated calcium carbonate with ball mill and supplied to PVC and rubber industries.

2012

Zantat began its market expansion overseas and made India as one of its target markets.

1997

Introduced a product specially developed for latex gloves industry – Ultra fine Precipitated Calcium Carbonate Powder with the brand name of SUPERLITE, functioning as an anti-tack agent.

2014

The second phase expansion of Zantat's manufacturing plant in Ipoh was completed, increasing the annual production capacity to 180,000MT.

2000

Calrock, a sister company of Zantat, was acquired to produce coarse grade Calcium Carbonate powder.

2015

Total export quantity of the year reached 140,000MT.

2002

Zantat KL Plant developed high value-added Calcium Carbonate dispersion specifically for the latex gloves industry. Zantat is the first Calcium Carbonate supplier in Malaysia to introduce filler into latex gloves industry.

2016

Zantat celebrated its 30th anniversary.

2005

Acquisition of a 10-acre limestone quarry in Ipoh, Perak.

2017

Construction of third phase expansion initiated in the first quarter. The expansion consists of a 12,500 sq.ft. double storey office block and a 110,000 sq.ft. factory building.

2010

60-year mining licence granted and construction of Ipoh plant commenced.

2018

The third phase expansion of Zantat's manufacturing plant in Ipoh was completed and commenced operations in the third quarter to manufacture 100,000MT of premium grade Calcium Carbonate powder annually.

2011

Zantat's first manufacturing plant in Ipoh commenced operations, with an annual production capacity of 90,000MT of Calcium Carbonate Powder.

**TO PERFECT HIS WORK,
ONE MUST FIRST SHARPEN
HIS TOOLS.**

Confucius

At Zantat, we believe in improving our manufacturing processes with substantial investments into new equipments and technology to produce diverse products for a wider range of industries.

LAYING FOUNDATIONS DISTRIBUTING QUALITY

To date, Zantat owns four manufacturing facilities. Three of which are strategically located in Perak under Zantat (Keramat Pulai) and its sister company, Calrock (Tasek Industrial Estate), with a significant vast built up area of more than 220,000 sq.ft. and 48,305 sq.ft. respectively. Another factory is situated in Kepong, Kuala Lumpur, occupying 40,000 sq.ft. of operation space.

We also own two limestone reserves, equipped with mining license with a validity period until 2068 and 2070 respectively. The combined size of the two limestone reserves covers a land area of 25 acres with total volume of limestone estimated at 22 million tonnes.

We are well equipped with various types of machineries designed to effectively facilitate the production process and to increase production capacity. Research and development are constantly on-going to steer the business towards global market needs.

人和

Dedication towards reliability, determination, and resilience is Zantat's driving force in growing a strong and loyal team.

We believe our people are our greatest asset. We are committed to equip our people through constructive and productive industry trainings to keep abreast with the latest state-of-the-art technologies and innovations. We are also dedicated to build and provide a cohesive working environment to generate positive well-being of each individual, where they are able to thrive with confidence and efficiency.

OUR PEOPLE ARE OUR GREATEST ASSET

NATURAL TREASURE

Calcium Carbonate (CaCO₃) exists in nature as a white calcite mineral found in limestone and other rocks. Processed Calcium Carbonate takes several forms, including natural or stearic acid coated Calcium Carbonate powder and pre-dispersed slurry.

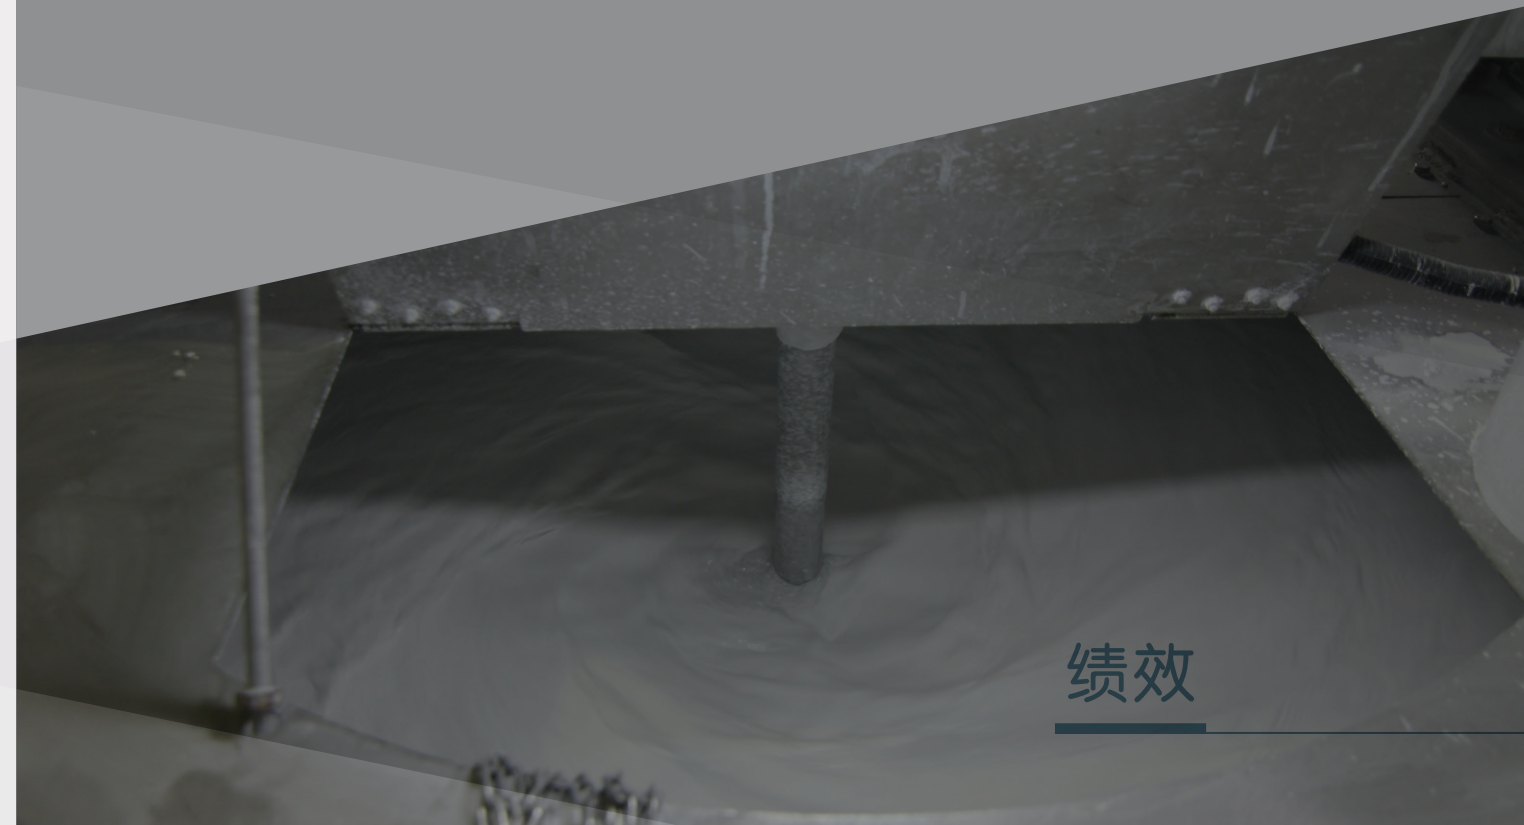

Calcium carbonate, both GCC and PCC are widely used in many industries as one of the raw material components for the production of, among others, building materials, adhesives, sealants, latex gloves, papers, plastics, and pharmaceutical products.

Calcium Carbonate powder is typically used as fillers in the production of plastics, papers, paints, coatings and rubbers. It can also be used as functional filler to alter the chemical and physical properties of a final product. Its natural whiteness makes it one of the cheapest pigments to provide whitening of materials.

Calcium Carbonate is pre-dispersed in slurry form to be used as a filler material to achieve maximum savings in material and production costs. Our Calcium Carbonate dispersion is specially developed to be used as fillers in the latex gloves and paper industries.

绩效

ESTABLISHING WORLDWIDE CONNECTION

Zantat has established its presence and made a significant impact in exports to countries across Asia Pacific. We are confidently moving forward for greater expansion in Malaysia and overseas to continuously explore and secure new potential opportunities.

IS NOT AN ACT BUT
A HABIT.**

Aristotle

CUSTOMER FOCUSED UNMATCHED COMMITMENT

Zantat's philosophy is strongly reflected in our commitment to our goals, capabilities and contributions in the industry throughout the business growth process.

坚定

Notable milestones achieved over the years are the result of our belief system that is rooted in the core values of determination, resilience and reliability. We resolve to overcome challenges and we take steps to assure our customers that the services extended to them is of excellence and quality, specifically catered to their business needs.

As part of the company's journey to success, we treat each and every business partner, customer and employee with utmost respect and care, continuously seeking ways to empower each individual to make a positive impact in the lives of others. We value genuine partnerships in the workplace as well as in the marketplace to achieve greater success as a team.

We endeavour to make things simple, practical and efficient across our business engagements. Our vision is to establish our presence as the leading manufacturer of Calcium Carbonate products, and to

be recognised as the trusted collaboration partner in providing unmatched quality and services to loyal customers.

At Zantat, we are dedicated with the mission to stay focused and be equipped with the latest state-of-the-art technologies and innovations while maintaining good relationship with customers. We take great pride to satisfy the needs of our valued clients and to give them our very best service.

WE CARE WE LOVE

博爱

We seek to make a positive contribution in the local community and the environment by encouraging our people to make a difference through organising of various engaging initiatives and events.

We believe working relationships among employees extends beyond the boundaries of the workplace.

Visits to underprivileged children's home, contribution to the special needs and disabled community, blood donation drives and gathering for sports recreation sessions are some of the initiatives we have organised with our people. We ensure strong and solid relationships are fostered and build through these social platforms.

GETTING IN TOUCH

We welcome enquiries pertaining to potential business opportunities and partnership collaborations, and we will be glad to assist you. Do connect with our marketing personnel for more information and discussion.

You can count on us, always.
